***PROTECTIVE
HAT INSERT***

PRODUCT USER GUIDE

GEL-TO-SHELL® PROTECTIVE HAT INSERT

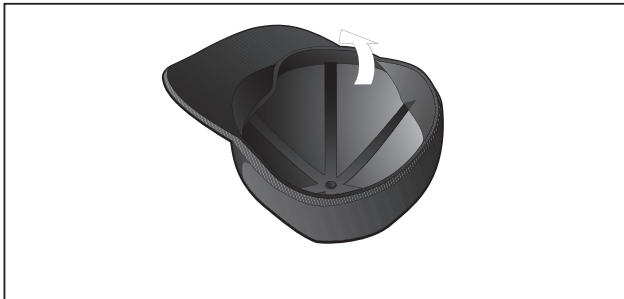

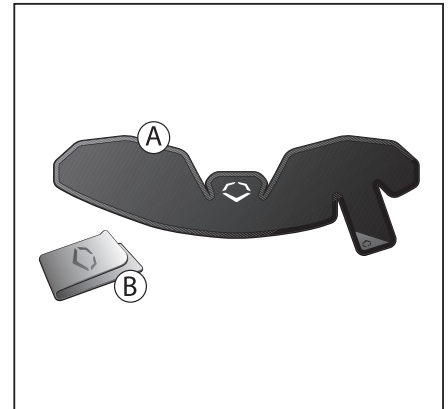

HOW TO FIT

WARNING: DO NOT OPEN FOIL PACK UNTIL READY TO FIT. READ INSTRUCTIONS FIRST. DO NOT PERFORATE OR OPEN FOIL POUCH. - CONTENTS WILL HARDEN IN MINUTES WHEN EXPOSED TO AIR.

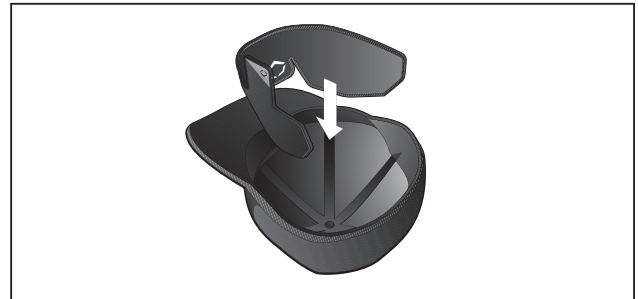

Make sure you have all the correct components before you begin the fitting process.

- A. Gel-to-Shell® Protective Hat Insert
- B. Metal Clip
- C. Ball Cap (Not Included)

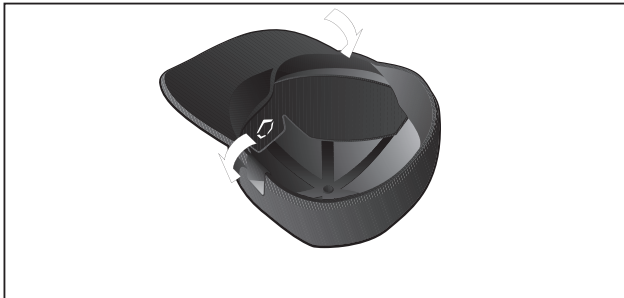

You are now ready to fit! **You will need a minimum of 30 minutes to complete the fitting process.**

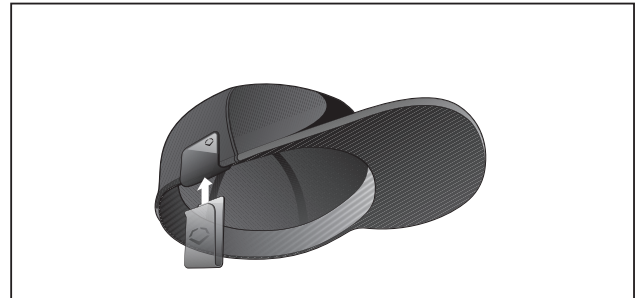

1. Flip your hat over and lift the sweatband.
2. Open the foil pack. Insert will begin to harden once exposed to air.

3. Smooth out any wrinkles from the center onward.
4. Position the insert above the hat and gently bend it into place. Place the insert into the underside of the hat between the hat and the sweatband.

5. Fold sweatband back over the insert. Fold tab onto the outside of the hat. This will hold the guard in place.

6. Use the metal clip to hold the tab in place while the insert is curing.
7. Wear your hat for 30 minutes to allow the insert to form to your head shape.
8. After 30 minutes, remove the metal clip, you have completed the molding process.

IT IS RECOMMENDED TO WAIT 24 HOURS TO ALLOW THE GUARD TO FULLY CURE PRIOR TO USING ON FIELD.
